HOBBIES AND INTERESTS

Web application development

I am interested in web application development and in my free time, I work on various projects primarily using Next.js technology with the TypeScript programming language. I constantly learn about new technologies to improve my skills and optimize the programs I write.

Working out

I have spent most of my life training in sports, specifically soccer and taekwondo for many years. In the past couple of months, I have also started going to the gym.

CREATIVE WORKS

Final Thesis on the Topic of Developing a Web Application for the League of Legends Community Using Node.JS Technology on MongoDB Database.

[09/2021 – 05/2022]

A web application developed in the MERN stack for creating and reviewing heroes related to the game League of Legends. It won third place at the Youth Innovation Exhibition.
